

# Central Safety Group Inc. Monthly Event

April 2025

## Super-charging safety

Book Now

**What:** Super-charging safety

**Who:** Catherine Itman, Safety Specialist, Industry Super Property Trust (ISPT)

**Details:** Business imperatives and safety outcomes are not always compatible, but Catherine Itman will be offering a good-news story to Central Safety Group at the April lunchtime presentation.

Catherine will talk about how ISPT maintains a 'do no harm' investment and operating philosophy, with HSE principles integrated into all business activity. Catherine will describe how the Safety and Property Risk team embraces opportunities to strengthen safety leadership across business functions, within a fast-paced business environment. By leading data-informed decision-making, understanding and translating business drivers into safety outcomes, and supporting change as early adopters, the team has established itself as a critical business function with respected and sought-after expertise.

Established in 1994 by some of Australia's leading superannuation funds, ISPT has grown a national property portfolio worth over \$20 billion. Catherine will explain their 'active client' business model, where her team works closely with internal stakeholders and external partners to set standards and influence safety performance.
