

Central Safety Group Inc. Monthly Event

August 2026

Sharing OHS knowledge across sectors

Book Now

What: Sharing OHS knowledge across sectors

Who: David Caple AM, David Caple & Associates

Details: What are some OHS initiatives that can be shared across the "legal supply chain", health sector and banking industry? This will be the subject of a presentation by David Caple AM, whose distinguished career has spanned the last 50 years as a researcher and consultant in multiple industry sectors.

David has witnessed and contributed to the evolution of OHS through an ergonomics lens with wide-ranging applications. His experience shows that there are links between OHS issues across industry sectors that provide opportunities to learn and share initiatives. In his presentation, David will focus on three sectors in particular: the "legal supply chain"; the health sector; and the banking industry.

In these industry sectors, David's role in ergonomics involved assessing work systems and developing OHS controls as part of multidisciplinary teams. Many of these have industry-level applications to address risks to staff and the community. This presentation will provide an overview of the methodologies used and the key outcomes. Come along to gain invaluable insights and mine David's enormous wealth of knowledge.
